

Charis Village Seniors Housing for Central Alberta

Groundbreaking Ceremony

Thursday, October 11, 2018 at 11:30 AM

72 Avenue and C&E Trail, Lacombe Alberta

The Charis Village Seniors' Housing Project

represents a unique vision and a culmination of years of planning to create a Christian faith-based facility which will serve as an anchor for adults 60 and older.

About Charis Village

The Charis Village model offers residents community, companionship, independence and as the development progresses and care needs

change, opportunities for assisted care in a beautiful Central Alberta setting.

Driven by a strong and growing interest, the volunteer stakeholders recognized a need to address the significant demand for a “village of care” where seniors may “age with grace” in a residence where their social, physical, emotional and spiritual needs are addressed.

Located on the north side of Henner’s Landing, west of the C & E Trail, Charis Village Phase 1 will be built as the first phase of a senior’s village offering a variety of independent-living housing options, ranging from ground orientated, duplex/semi detached homes to a 46 suite, four storey building with underground parking.

Subsequent phases will add additional housing options along with the provision of community supports and care designed to allow residents to live independently with access to those services which allow them to live with confidence in a community that will address their needs as they age.

Become part of the Charis Community -*Selling life lease options now*
